USFPRA

UNITED STATES FOREIGN POLICY RESTRICTION ASSOCIATION

Who decides when America goes to war?

The Constitution says **Congress**. But in 2026, the U.S. went to war with Iran **without a single vote in Congress**. We are a student-led interest group working to change that.

Our Four Principles

Oversight
Congress votes before any major military action.

Diplomacy
Trade, negotiation, and alliances before force.

Transparency
The public knows where we fight and what it costs.

Force only when necessary
Military action for real threats to national security.

The Iran War in Three Numbers

$38B
U.S. military cost as of Aug. 1, 2026

~$2,000
Estimated cost per American household

0 votes
By Congress to authorize the war

Why Students Should Care

It's our generation. Automatic draft registration for men 18–25 begins in December 2026.

It's our money. War debt and higher gas prices land on us.

It's our voice. Many young Americans say military force is overused.

Find Us on Campus

Our booth in the student center and at club fairs

Debate nights with student groups from both parties

Free flyers & stickers at every event

Start a chapter at your school and lead it
